## DETAILED ACTION

### *Claim Objections*

1. Claims 7 and 24 are objected to because of the following informalities:

Claim 7, lines 1-2, "at least two of the actuators" should be --the actuator comprises at least two actuator that--;

Claim 24, lines 1-2, "at least two of the actuators" should be --the actuator comprises at least two actuator that--.

Appropriate correction is required.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4, 6-9, 16-21, 23-26, 33-35 are rejected under 35 U.S.C. 102(b) as being anticipated by Eipper et al. (6,224,120).

Eipper et al. disclose a retractable grill (12) attached above the front bumper of a vehicle (23). The grill (12) is moved from a retracted position behind the bumper, Figure 3, to an extended position in front of the bumper (23), Figure 6. Multiple actuators (51-54) cause the movement of the grill when either a speed sensor or an impact sensor (56) detects an impending crash. Elements (42) of the actuator mechanically fail when subjected to a load, including those of claims 17 and 34. Headlight apertures are formed in the grill (12). The grill (12) substantially encompasses the frontal surface of the vehicle's front end. The actuators can be operated either manually or automatically.

### *Double Patenting*

4. Applicant is advised that should claim 2 be found allowable, claim 3 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

5. Applicant is advised that should claim 4 be found allowable, claim 19 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

6. Applicant is advised that should claim 20 be found allowable, claim 21 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

### *Allowable Subject Matter*

7. Claims 5, 10-15, 22, and 27-32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
